

- Participate in regular conference calls with onsite and customer team, elicit requirements from them, provide daily progress updates and discuss blockers, design approaches
- Participate in the full life cycle of development from requirement analysis, specification and design through implementation, testing, deployment, maintenance and support
- Perform proof of concepts for checking task feasibility and early customer feedback
- Implemented 'World Heat Map' using JavaScript, showing each country issue with their issue priority.
- Implemented zoom functionality to the world map so that user can zoom to specific country and if select country only country map highlighted.
- Integrated 'Heat Map' with SharePoint list so that every time a country priority changes it reflects on map on real time using REST.
- **Usage Stats(Web based application)**
 - **Environment:** SharePoint on premise, SQL Server 2015
 - **Technology used:** HTML5, jQuery, Bootstrap, REST
 - **Roles and Responsibilities:** Estimation, design and development of various modules.
 - Bug fixing and maintenance of the product
 - Coordinated with other teams working on the same project
 - Implemented various charts, custom pop up, and drill downs
- **Seller Workbench (Windows 8.1 desktop app)**
 - **Environment:** SharePoint on premise, SQL Server 2015
 - **Technology used:** C#, JavaScript, HTML5, SSIS, SSAS, T-SQL
 - **Roles and Responsibilities :**
 - Analyzed the requirements and developed the assigned modules and unit testing.
 - Implemented different types of charts to show sales statistics
 - Designed and created SSIS packages to extract, transform and load data from upstream source.
- **Event Tracing (JavaScript plugin)**
 - **Environment:** IIS, SQL Server 2014
 - **Technology used :** C#, JavaScript, T-SQL
 - **Roles and Responsibilities:**
 - Implemented generic client side so that every project only need to add reference of code snippet
 - Reduced server load by writing function to record events in local file and send to server periodically.
- **Charts Templates (JavaScript Library)**
 - **Technology used:** JavaScript, jQuery
 - **Roles and Responsibilities:**
 - Analyzed the requirement across different projects
 - Implement generic code for bar chart, and pie chart

EDUCATION

Bachelor of Technology	September, 2009 - May, 2013
Kamla Nehru Institute Of Technology, Sultanpur (U. P.)	Secured 72.16%
Intermediate (HSC)	July 2006 - May 2008
Hanumat Intermediate College - Kalakankar, Pratapgarh (U. P.)	Secured 67.8%
High School (SSC)	July 2004 - May 2006
Inter College Sangramgarh - Sangramgarh, Pratapgarh (U. P.)	Secured 74.16%

CERTIFICATES

- **Microsoft Certified Professional (MCP):** Developing Microsoft SharePoint Server 2013.
- **Microsoft Certified Professional (MCP):** Querying Microsoft SQL Server 2012.

SOFTWARE SKILLS

- C, Node.js, JavaScript, jQuery, Angular JS, HTML 5, XQuery, Android, Coffee Script, Ruby on Rails, Bootstrap
- Android Studio, Visual Studio 2013/2012, Microsoft SQL Server 2012/2014, Eclipse IDE, SharePoint 2013, Vim
